

Using your BrilliantSmart app you can turn this device ON/OFF. See over for Voice Control.

8. If unsuccessful click 'How to make light blink rapidly' and follow the steps.

If still unsuccessful turn off the power to the smart device, wait for 30 seconds, then try again.

Multiple Globes

It can be more reliable to add one globe at a time with power to the others not on.

Multiple units can be added at once but they then need to be identified once connected. This can be done by turning them off and on (via app) and renaming the device name accordingly.

6. Voice Control

To integrate with Amazon Alexa or Google Assistant devices Open the BrilliantSmart app press 'Profile' then 'Settings' then 'Integration'.

Click on Amazon Alexa or Google Assistant and follow the steps.

7. BrilliantSmart App Assistance

For BrilliantSmart app assistance click Profile then FAQ. This should answer any queries you have.

If this doesn't solve your problem then click 'Customer Service', select 'New' and click on the device then type in your query.

You should receive a response within 24 hours.

For further Troubleshooting or to connect via AP Mode go to www.brilliantsmart.com.au.

8. Other BrilliantSmart functions

RGB+W

Select the desired colour from the colour palette.

Dimming

Select the desired dimming level from 0% to 100%

Timer & Schedule function

Click to set ON/OFF time.

Manual Override

The globe can be turned ON/OFF manually from the wall switch.

Memory

The smart device will remember what dimming levels and colours are selected when the light is turned off and on via app.

If power is disconnected this can reset smart device dimming level back to 100%

Device Reset

If reset needed to smart device, turn the power off then on three times. Colour will revert to white and blink rapidly. Follow Setup Instructions as required.

INSTALLATION

Power is to be turned off at existing wall switch prior to installation.

Insert smart device into a suitable type light socket/lamp holder by gently pushing then slight twist till globe is locked in position clockwise.

Be sure smart globe is secured in socket/lamp holder.

Turn on smart device via existing wall switch and follow the BrilliantSmart app steps.

1. Connect to your WiFi

Ensure your mobile phone is connected to your 2.4GHz WiFi network.

Your mobile phone and your smart device needs to be within good signal strength range of your WiFi router. (Refer to your router specifications for max range.)

2. Download the BrilliantSmart App

Please download the free BrilliantSmart app from the App store or Google Play store, or scan the QR code below.

3. Register the BrilliantSmart App

Open the BrilliantSmart app.

For new users, register a new account or if existing user, login with your user name and password.

4. Configure your BrilliantSmart App

Setting up your Home

You can setup multiple homes or locations. Click **'Add Home'** button. Or Click on **'Home'** top left if you are adding or modifying details then **'Home Management'** to setup your home(s), add or rename rooms and share devices.

5. Add your Smart Device to your App

1. Once safely Installed power on device at Wall Switch. Turn wall switch OFF/ON till light starts to Blink Rapidly.
2. Open the BrilliantSmart App, tap **'Add Device'** (if empty room) or **'+'** to add your Smart Globe.
3. Select **'Lighting Devices'** in the list of devices.

If Globe is blinking rapidly then press **'Confirm indicator rapidly blink'**.

4. Enter your WiFi password.

Connection will now begin.

5. Once connected you'll get a menu **'Adding device succeeded'**.

Select the room device and press **'Done'**.

You can click on the pen to change the device name.

6. The smart device can now be controlled by the BrilliantSmart app.
